(2) Continuous promotion and encouragement to suppliers for implementation of their own management systems

- In order to carry out safety management for suppliers and prevent constructional safety incidents, the Group not only continuously reminds and informs contractors the relevant safety management requirements, but also conducts on-site supervision over the operation safety of the manufacturers and procures them to implement their own management to prevent safety hazard to workers or damage to the environment arising from improper operation.
- The Group also requires engineering contractors to comply with and undertake to abide by all requirements under the “Management Measures for Safety and Hygiene of Contractors” and the policies and requirements under ISO 14001 and OHSAS 18001 of the Group and concurrently requires contractors to assign safety management personnel and engineering supervisors to the construction sites to confirm the safety before, during and after the construction in order to ensure the operation safety and environmental hygiene.

(3) Continuous increase in proportion of green procurement

- In principle, if the suppliers in the country of the Group’s business footholds or the neighbouring countries share the advantages in delivery time with the same favourable conditions in terms of quality, service and price, priority would be given to the local raw material suppliers and contractors in order to reduce the carbon emission in the process of transportation and jointly achieve green efficiency.
- In addition to continuously facilitating the replacement of old and high-consumption equipment with new models through plans on manufacturing process improvement or special projects, the Group also regularly participates in various exhibitions of innovative technology and new energy conservation equipment in hope to continue to manufacture with relatively high-efficiency equipment, reduce energy consumption per unit, reduce the cost of electricity used for operation, thereby implement energy management and enhance the competitiveness of the Group in the industry.

- 集團並規定工程承包廠商必須遵守及切結「承包商安全衛生管理辦法」之各項規範，遵守集團ISO 14001及OHSAS 18001之政策規定，同時要求於施工區域派遣安全管理人員及工程監工人員，進行施工前、中、後之安全確認，以確保工作安全及環境衛生。

(3) 持續增加綠色採購比重

- 集團除持續透過製程改善或專案計劃，促進老舊之高耗能設備汰舊換新外，並定期參與各項創新技術、節能新設備展覽會，以期持續以相對高效能設備進行生產，降低單位產品能耗，節約營運電力成本落實能源管理，也提升集團產業競爭力。
